## *Bio*

Brighton based Lonely Fire combine haunting melodies, minimalist drums and finger picked guitar, creating an atmosphere somewhere between uplifting and a darker place. Zoe's vocals captivate as they swell from soft and intimate to raw and poignant - interwoven with close harmonies.

Zoe and Hannah met by chance at a gig in 2018 and instantly bonded over shared influences. They spent the next year jamming in a tiny, dark warehouse room, experimenting and shaping their sound.

Taking their first two tracks to the studio, their recognisable sound started to emerge - even if the name Lonely Fire only came to them a week before their debut release in Feb 2020.

2020 is an exciting year as they refine their live sound and record/release their next tracks.

## *Debut Release*

'Light Thing/Healing', was self released on 21/02/2020 and consists of two tracks:

### **Light Thing**

Finger-picked guitar, ethereal vocals, evolving to driving bass with electric guitar embellishments and synth.

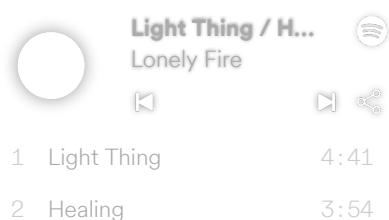

Suits Indie/Folk/Acoustic Chill/Upbeat Acoustic/Cafe playlists.

### **Healing**

Dark, atmospheric synth, close vocals, minimalist drums, evolving to soaring vocals, powerful synths and chanting.

Suits Dark Indie/Sad Indie/Indietronica playlists.
